EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- 2. Authorization for this examiner's amendment was given in a telephone interview with Robert Conte on March 4, 2002.
- 3. The application has been amended as follows:
- 4. In claim 1, line 9, replace the term "the" (second occurrence), with the term -a--.
- 5. In claim 1, line 13, after the term "plurality", insert the terms –of splines--.

Allowable Subject Matter

- 6. Claims 1, 5, and 8 are allowed.
- 7. The following is an examiner's statement of reasons for allowance: This invention deals with a data cable comprising an interior support wherein the support has a cylindrical longitudinal extending central portion, a plurality of splines radially extending from the central portion along a length wherein the splines have a triangular cross-section with the base of the triangular forming part of the central portion (Claim 1). Based on the amendment submitted on January 18, 2002, which encloses a declaration under 1.131, in which the applicant swears that the claimed invention thereof was prepared prior to the September 15, 1995 (priority date of Prudhon reference 5,952,615). Specifically, the applicant states that the drawings for the 5,789,711 patent,

Art Unit: 2831

the 5,789,711 patent, applicant in which the present claims priority, were prepared prior to September 13, 1995. This argument is persuasive and therefore the case is allowed.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
